

**TURN THE TOWN BLUE AND GOLD FOR THE 150TH ANNIVERSARY
BUY YOUR BULBS AND YOUR LONG HILL PRIDE GARDEN FLAGS
Plant your bulbs in November 2015 for a beautiful blooming statement
to celebrate**

CHARTER DAY- March 23, 2016

Plant this FALL for a spectacular SPRING in 2016

In honor of Long Hill Township's 150th Anniversary

Long Hill Township will be blooming with Blue and Gold
(Golden daffodils and Blue squill flowers *Deer Resistant*)

In the Spring of 2016

Long Hill Township will be 150 years old in 2016

Bag of Bulbs is \$3.00 (18 Bulb mixture) Garden **Flags are \$10.00**

2016 will be a year of celebrations and fun!!!

Let's get started!!!

Future events to commemorate this milestone will be posted on the Township website:

www.longhillnj.gov

Planting Daffodils

1. Select high-quality daffodil bulbs that have not dried out. ...
2. Plant bulbs in the fall—about 2 to 4 weeks before the ground freezes.
3. Plant bulbs 1-1/2 to 5 times their own depth. ...
4. Daffodils will tolerate some crowding but prefer to be spaced 3 to 6 inches apart.

Planting Squill

1. Dig holes and plant the bulbs 3-4" deep and 4" apart. The bulbs are rounded, with small points on the tops; these points should be placed facing up.
2. After planting, water well to settle the soil around the bulbs. Roots will form in the autumn.
3. When in bloom feel free to cut flowers for colorful bouquets. This will not hurt the plants.
4. After blooming has finished for the season leave the foliage in place; don't cut it off. The leaves will gather sunlight and provide nourishment for next year's show. Water as needed during active growth periods; about 1" of moisture per week is a good estimate.
5. By early to mid-summer the leaves will yellow and die back as the plant slips into dormancy.
