Dear Resident,

re: Survey of Sanitary Sewer and Manholes - Long Hill Wastewater Collection System

Please be advised that from about November, 2023 through February, 2024, between the hours of 7:00 a.m. and 4:00 p.m., New Jersey American Water's qualified contractor Colliers Engineering will be conducting a survey in the Long Hill wastewater collection system.

New Jersey American Water is undertaking this project to evaluate the connection of additional areas of the township to the sewer system. As part of this project, we need to survey certain elevations including inverts, rim and top of curb elevations, length of pipe run, percent of slope, and pipe diameter. The survey may also include surveying sill elevations of certain existing dwellings on the homeowner's property along with a minimum of three ground shots around the dwelling.

If you have any questions about this project, please contact the Project Manager, John Dunphy, at john.dunphy@amwater.com. For general questions about your wastewater service or to report an emergency, please contact our Customer Service Center at 1-800-272-1325.

Esto es un aviso importante sobre su servicio de agua / alcantarilla. Para la ayuda de la traduccion, por favor llamas a New Jersey American Water al numero 1-800-272-1325.

Sincerely,

New Jersey American Water Customer Service
