

Work will begin on the Morristown Road Improvement Project on Monday, July 22, 2019. Initially, work will consist of curb and sidewalk ramp installation and inlet reconstruction which will not necessitate road closure. On or about August 12th for approximately one week, Morristown Road will need to be closed for milling, paving and striping. A detour map and detour signs will be posted in advance of the closure. Police will be on scene for traffic safety.
